Bowdoin college Alumni association

Dear Sir:

The Committee on the Alumni Fund of Bowdoin College are greatly encouraged by the responses already received to the circulars issued. All that is needed to maintain the College and to secure for it greater influence and honor in the future, is an increase of the general funds. If every Alumnus will do something, the result will be accomplished. Honored as the College is by the names of the great men it has educated. yet there are but few persons of wealth among its Alumni. We earnestly call upon all to do what they can *now*, even if the amount is small, as additions may be made hereafter. Whilst thus far some have contributed to the *maximum*, which is $300, others have contributed the smallest amount named in the circular, but the spirit in which some of the small contributions have been made, considering the circumstances of the contributors, make them the most precious of gifts.

Independent of the amount contributed for the Fund, if we shall be able to announce at the next Commencement that the Alumni of Bowdoin College have contributed to the aid of the College more generally, in proportion to their numbers, than the Alumni of any other College to their Alma Mater, it will be most influential upon other friends of the College, who may be called upon to contribute.

As the residences of many of the Alumni are unknown to the Committee, they have prepared a Catalogue with such information as they have, to which this is attached. Will you at once acknowledge the receipt of this, that the Committee may know if there is any error in your place of residence as given, and will you give any information you have of the residences of others of the Alumni whose residences are not given in the catalogue, and will you also, if you have not, reply to the circular of October. This is desired not only that every Alumnus may be reached, but to initiate the periodical publication of catalogues, with residences, titles, etc., given, with the hope that it will strengthen the interest of the Alumni, and tend to bring them and the College into more intimate relations with each other in the future.

For the Committee,

W. D. NORTHEND.

Salem, Mass., November, 1872.
